Yefry Sanchez

New York, NY | Portfolio | Github | LinkedIn | yefrymsp@gmail.com

PROFESSIONAL SUMMARY

Front-End developer experienced in building responsive, high-performance web applications using JavaScript, TypeScript, React, and Node.js. Skilled in creating clean, maintainable front-end architecture, integrating RESTful APIs, and collaborating across teams to deliver scalable, user-focused solutions. Passionate about improving UX, optimizing performance, and staying current with modern web development practices.

EDUCATION

Bachelor of Science in Software Engineering *July 2026*
Western Governors University, Salt Lake City, UT

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML, CSS, Tailwind CSS, Framer Motion
Backend: C#, Node.js, Express.js, SQL, MongoDB
Cloud: AWS, Google Cloud
Testing: Jest, Vitest, React Testing Library
Tools: Git, GitHub, VSCode, Figma, Postman

PROFESSIONAL EXPERIENCE

Freelance | React Developer Jun 2025 - Present

- Developed responsive and high-performing web applications using React, Next.js, and Tailwind CSS, leveraging JavaScript and TypeScript to enhance user interfaces.
- Integrated and managed RESTful APIs with Node.js and Express.js, ensuring dynamic, data-driven web experiences and optimized performance.
- Collaborated directly with clients to define project scopes, requirements, and deliverables, aligning development with Agile best practices.
- Utilized GitHub for version control and coordinated development efforts, demonstrating strong coding ability and attention to performance optimization.

Torres Cleaning | Full-Stack Developer (Contract) Jan 2026 – Mar 2026

- Built a full-service management platform for a cleaning company using Next.js, Node.js, and PostgreSQL, streamlining operations and client interactions.
- Implemented a quote request system and dynamic admin dashboard, enabling the business to reduce manual workflows. Automated payment processing with Stripe, generating secure dynamic payment links sent via email/SMS, and improving cash flow speed.
- Developed real-time job tracking tools for cleaners and admins, enhancing service delivery visibility and accountability.
